4. Cook for a minute with the chicken until it starts to caramelize on the skillet.			
5. Add fresh basil leaves, fold it into the chicken, and then immediately turn off the heat			
The holy basil really only needs to cook for about 5 seconds, and it will continue to wilt and cook			
from the existing heat of the chicken. This step is important because if you cook the basil for too			
long, it loses some of its glorious flavor and gets slightly chewy.
